

Our Philosophy

ANGLE VALE
preschool

At Angle Vale Preschool, we believe in the power of nurturing, responsive relationships as the foundation for all learning. Our welcoming environment, and the warmth of our educators, embraces each child, family and community member.

We celebrate the wonder, joy, and curiosity of childhood, where play is valued as a biological necessity. Children are given the time, space, and permission to play, explore and make meaning of their world. We are intentional and purposeful in creating engaging, natural environments that spark imagination and encourage children to reach their full potential.

Our team is collaborative, reflective, and responsive; trusting each other, honouring each child's capabilities, and working closely with families and the broader community. We are committed to nurturing holistic development, supporting each child's agency and promoting wellbeing.

We are committed to embedding Aboriginal perspectives in all that we do, listening with open hearts and minds, and ensuring all children and families feel valued and included. Our vision is to nurture a strong sense of belonging, understand and celebrate the richness of the world's oldest living cultures.

Our kindergarten fosters a rich play environment where children experience the full spectrum of emotions, test boundaries, take risks, and learn from both success and challenge. Here, children are supported to become resilient, independent, and compassionate learners, deepening their understanding of themselves, others, and their world.

What children value about Angle Vale Preschool:

- "I like to play"
- "Playing in the sandpit"
- "Playing with my friends"
- "Playing in the nature yard"
- "I like playing at Bush Kindy"
